Ok! I did some significant editing, thinking that what we needed was a complete 2 pager that Tom could provide to OPP based on Kacee's guidance.

See what you think.

Hi Charles and Danelle

Vince has summarized the perspectives expressed at our discussion with Tom a couple of weeks ago. Can you take a look and make sure you are okay with how he characterized things? I expect this write up will be transmitted to OPP.

Hello Norm—Here are my thoughts on Kacee's second item below (ORD's conclusions under the cancer guidelines). The scientists who reviewed glyphosate materials didn't develop conclusions. If pressed, though, here's what I think might become a joint conclusion. It would be good to circulate this among the ORD scientists to get their views and edits ...
Thanks!—Vince

We'd like to get these over to OPP as soon as possible. Once I get the materials from NCEA, we can circle back to make sure that Tom is ok with the the whole package.

Thanks in advance, and please let me know if we need to discuss.

Hi Jackie –

Nice to run into you today in the food court! I talked with Tom about glyphosate, and here are the next steps:

Thanks! Give me a call if you want to talk about any of this. I'll assume OSP will do the coordinating on this unless I hear otherwise from you.
